EDELHIPPOS  
St HIPPOLYT  
DODSON&HORRELL  
+ Finnish generic feeds

#### The Nordic countries:

Scandinavia has been our home market for many years. The domestic feed companies use PC-Horse as a market tool in their service to horse owners and for distributing their feed analyses to customers and retailers. As a result of increased marketing sales of quality horse feeds across national boundaries, we can now present several European horse-feed brands in our Scandinavian feed lists.
